## Action Items from Nov. 20<sup>th</sup> Fall Meeting

ACTION ITEM	WHO	STATUS
Recognize the contributions of Rosamund and Jim Pojar to invasive plant management. Not an on-going award, but when deserved.	Paul Glover to do write-up, input from Merci to bring ISCBC	On his to-do list Next meeting
Developing a geo-caching program to develop more spotters and reporting.	Dan Tisseur Denise McLean	Develop a draft program and implement trial runs to find interest levels of the general public and develop weed spotters among community members. Will make a plan this winter.
Need input from the eyes on the ground as to where critical containment polygons need to go for hawkweed in the Cassiars and marsh plume thistle in the Robson Valley and Prince George IPMAs	Denise McLean/all IPMA contractors/field crews/NWIPC staff	Some work done from Marc Schuffert on the hawkweed. Would like to know any input on where hawkweed or marsh plume thistle located in the Cassiars and Robson Valley Area. By end of November
