

Northwest Invasive Plant Council

Landowner Invasive Plant Removal Rebate Program

Thank you for your interest in the Northwest Invasive Plant Council's Landowner Invasive Plant Removal Rebate program and your concern for the spread of alien invasive plants in British Columbia. This program is to aid rural private property landowners with the cost of controlling invasive plants on their land. Qualified applicants may be eligible for a rebate up to 50% of your costs to a maximum of \$750.00, excluding the cost for contractor travel. Please discuss your options and preferences with the contractor.

The funding for rebates is limited and approved on a first-come, first-server basis.

You may not qualify for this rebate program if:

- You have received a Landowner Rebate in the previous two (2) years.
- You are already receiving money from any other funding program for invasive plant control on your private land.
- The estimated cost is not within industry standards.
- The *Request for Rebate* is received by the NWIPC after November 15 of the year in which the work was completed.
- The plant(s) you wish to target are not on our *Target Species List*

Follow these 4 simple steps to complete the Landowner Rebate Program:

1. Check the *Target Invasive Plant* list (p. 4) to ensure the species you want controlled is/are on the list.
2. Hire a certified pesticide applicator with a valid service licence to provide a cost estimate and invasive plant recommendations for you.
 - A list of potential service providers is provided (p. 5) but not limited by the NWIPC.
 - The cost must be within industry standards.
3. When the certified pesticide applicator is at your place of residence, complete **Part 1: Application for Assistance** (p. 2). Send it to the NWIPC via mail or email. The applicator may assist you with completing this form.
4. Upon acceptance of your application by from the NWIPC and after work is satisfactorily completed, submit **Part 2: Request for Rebate** (p. 3) to the NWIPC.
 - **The annual deadline for submitting your Request for Rebate is November 15 of the year in which the treatment was completed.**
 - The request for rebate must include a copy of the contractor's invoice showing "PAID".

If you have questions, please call our toll-free number, 1-866-449-3337 and leave a detailed message with your name and telephone number or send an email to manager@nwipc.org.

Submit all required forms and documentation to:

manager@nwipc.org (preferred)

Or mail:

Northwest Invasive Plant Council
PO Box 2052, Prince George, BC V2N 2J6
